

Mechanical Engineer

Stellenbosch Premier Manufacturers is a mechanical design and manufacturing company serving the mining, industrial, and water sectors. We are seeking a Mechanical Engineer/Technician with a passion for innovation and design to join our dynamic team.

Key Responsibilities:

- Design and model mechanical equipment
- Oversee and manage projects through manufacturing and installation phases

Requirements:

- BEng degree in Mechanical Engineering
- 0-3 years' relevant experience
- Strong understanding of technical designs, drawings, and materials
- Proficiency in Microsoft Office (especially Excel)
- Experience with Autodesk Inventor (advantageous)
- Valid driver's license

Competencies:

- Attention to detail
- Strong time management (ability to handle multiple projects)
- Teamwork and collaboration skills
- Problem-solving abilities

To apply, please send your CV to jc@naco.co.za by **15 November 2024**.
